

ProtocolManager

```
classDiagram
    class ProtocolManager
    class ConsoleManager
    class UCIManager
    class XBoardManager
    ConsoleManager --|> ProtocolManager
    UCIManager --|> ProtocolManager
    XBoardManager --|> ProtocolManager
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'ProtocolManager'. Below it are three boxes: 'ConsoleManager' on the left, 'UCIManager' in the center, and 'XBoardManager' on the right. A horizontal line connects the three lower boxes, with vertical lines extending upwards from each to a single point. From this point, an arrow points vertically upwards to the 'ProtocolManager' box, indicating that all three lower classes inherit from 'ProtocolManager'.
